RUST PROOF IRON,

FOR

ROOFING, WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those in want of cheap roofing, to their GALVANIZED PLATES, and to the many advantages which they possess over all metals and other substances hitherto used for this purpose possessing strength, the strength and thickness of iron without its liability to rust having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere than any other Tin Plate Iron, Zinc &c, or any other metal now used for roofing and consequently form a much better and tighter roof, requiring far less frequent repair whilst the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metals, to the many other purposes to which this protected metal can be applied In general terms it is applicable to all articles of iron which it is desirable to keep out from the action of the atmosphere And they would especially call the attention of those engaged in TELEGRAPHIC LINES to their Galvanized Wire which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal

Having lately erected works for this city for the purpose of galvanizing Nails, Spikes Bolts Wire, &c, they will be able to furnish any article which may be desired on as ample terms as manufactured in Europe, Orders sent by hand from 16 to 32 wire gauge GEO. J MOREWOOD & CO

THE VEGETABLE PULMONARY BALSAM.

FOR TWENTY YEARS THE MOST POPULAR REMEDY IN NEW ENGLAND

FOR *Coughs, Colds, Consumptions, Asthma, Croup, Whooping Cough, Spitting of Blood Hoarseness, Pain, Bronchitis and Pulmonary Affections and Diseases of the Lungs & c & c & c*

The Vegetable Pulmonary Balsam has been very extensively used for the past twenty years, and probably with greater success than any other article known

Physicians write to us that "they consider it a safe, a sure efficacious remedy that will not disappoint the reasonable expectation of those who use it"

Another says, I have, for some time past, been in the habit of prescribing the Vegetable Pulmonary Balsam for consumptions, asthma, pleurisy, spitting of blood, whooping cough or pulmonary affections of every kind —& with confidence assure you that I have never found any other preparation used for the above complaints to effect so complete a cure as this

For the most conclusive testimony as to facts, see pamphlets to be had

The Vegetable Pulmonary Balsam has for many years been justly esteemed by the afflicted as a sure remedy for Consumption, Asthma, Coughs, Colds, Whooping Cough, Spitting of Blood, Pleurisy, Pain in the Side, Breast or Lungs, Hoarseness, Croup, Bronchitis and all diseases of the Throat and Lungs, and has been extensively used throughout the United States, Canada and the West Indies, with the most astonishing success, and has obtained a reputation unequalled by any other medicine now before the public

Many cases of apparently confirmed Consumption, after the patient had been given up by the physicians to die, have been completely cured by the use of a few bottles of this Balsam

Public Speakers and Singers will find this Balsam a most valuable preparation to clear the voice, allay irritation, and remove hoarseness

WLADD Agent for Bangor

Among the numerous remedies which stand recommended on the basis of ancient name are none perhaps which have acquired so great celebrity, and received more unqualified approbation than the Life Pills—They have gained their high reputation entirely by their good works The cures once effected always pass them up They are grateful to the stomach—they improve the functions of secretion nutrition and circulation They restore digestion and appetite and are a natural vermifuge, which clear through the whole system, giving greater vitality and animation The experience of thousands attest to their good effects After suffering them for a short time the filth removed and invalid finds that ill disagreeable internal humors have forsaken his system His digestive organs perform their proper functions, his blood becomes normal purity the oppressive sense of weakness and pain departs and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and cheerfulness Such are the results produced by Halsey's Sugar coated Pills the kindest yet most effectual operation of the class in use

In BILIOUS complaints, dizziness, headaches, indigestion, dyspepsy, and all other disorders of the stomach the influence the most happy result of these Pills Sick headache, tetter Erysipelas, Pimples on the face, Scrofulous complaints are many other diseases originating from IMPURITY OF BLOOD certificates have been received from individuals who have taken them for a few weeks, (according to the directions which accompany the box) whose cures of the most afflicting case of scrofulous affections. They give *Gold Blood for Bad Bottles* the boasted Sarsaparilla, of late lessened the true virtues of that valuable plant and useless effectual than a single box of these extraordinary Pills In Colds Coughs, Influenza, Sore Throat Headache Giddiness &c, they are recommended with entire confidence the relief in these cases is quick and permanent For Love and Acid Fevers Asthma Piles, Loss of Appetite, Dropsy, Jaundice Worms, Dizziness General Debility, and many of the various other diseases to which the human system is liable they have proved an infallible remedy their action on the bowels as of the most characteristic even *a few doses* never cause griping or unpleasantness yet they are sure and effectual It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy on a similar class a trial only will explain the wide difference The unhappy invalid sufferer having *tested* but *a single box* of them will with joy for this unexampled change wrought in his health, bear testimony to their uncommon virtues

IN DYSPEPSIA The curative of sugar coated pills is lending to the great virtues of the Magic Life Pills, to their common powers in promoting health, upon which they exert a very powerful influence, so that they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by imposing of them as justly through the already acquired reputation and popularity of the genuine *Halsey's sugar coated Pills* In order to get the true and original sugar coated pills see that the engraved signature (C W Halsey) is on the label of each box and buy only of advertised agents.

Mr. Woolson and his School.

To the Editor of the Whig and Courier

I shall allow myself room in your paper to express a degree of gratification I never before felt on any similar occasion I refer to the pleasure I experienced while attending, for a couple of hours this afternoon, the examination of the Young Ladies High School, under the charge of Mr Woolson — No one can speak of the appearance of this school except in terms of high praise Every exercise gave the most evident indications of duty well performed on the part of both teacher and pupils The recitations and modest confidence so exhibited that spirit of *guessing* often so observable on such occasions, with which the questions were almost invariably answered showed a degree and thoroughness of information which must have satisfied every one present, that this is emphatically a school where learning is made an *earnest* pursuit No exceptions can be made to its more than creditable appearance in every regard But I was particularly pleased with the exercises in reading This branch of general education has been much neglected The opinion has been too prevalent, that when the alphabet and the general pronunciation of words are learned the art of reading is acquired—but it is so—to read pronunciation and proper observance of the marks of punctuation must be accompanied with a true conception of the design and spirit of the piece, expressed in the tone of the voice in the whole manner of speaking Without this all reading is defective—has neither charm nor beauty It will not be considered invidious I refer by way of illustration, to the reading of Miss Fordham The style in which she read the poem Excelsior, deserves a degree of commendation which expression does not seem like flattery But no one, I do consider, listened to her reading of those beautiful verses without seeing, that poetry has been correctly defined—painting with words and without being the case—I wish I were such a reader

Here let me change the subject enough to congratulate the School Committee, on their having procured the services of so good and able a teacher as Mr Woolson has *demonstrated* himself to be Mr Woolson is a gentleman, and as we instinctively when he came among us had to obtain and with certain prejudices But they have long since given place to the good opinions and best wishes always secured to the acquaintance has won for him Few young men deserve more credit or are more worthy the sympathy and encouragement of all who would reward a noble ambition From a meagre pittance left to his own support he belongs to the class of self made men Through his own industry he obtained means to enjoy more than 5 years instruction in the N Y University, and would have finished the whole course there had he not been called away to take the charge of an Academy Since then he has been, without interruption, engaged in his present laudable profession His heart is in the work and true to the universal rule that every man is useful in the calling which engages his affections, Mr Woolson is very useful in his One thing may be said of him, which ought to be regretted cannot be said of all, an instructor has a *growing* man No scholar under his charge, as to close a student as he and he left to his encouragement, that his friends observing nationally an improvement in his scholarship When science is rapidly advancing, and the element of human knowledge in all its departments are daily increasing the teacher must be a growing man or the child of the last generation will be wiser than himself

My communication is assuming a length which I should fear would exclude it from your columns did I not know that you will unite with me in assuring Mr Woolson that he has many friends who are watching the progress of himself and school with more than pleasure and who look for him as we look to his sample to little interest

☞ The following resolutions have been reported to the Legislature of Massachusetts, debated and passed, the last

Resolved That the Legislature of Massachusetts views the existence of human slavery, within the limits of these United States, as a very great calamity—as an immense moral and political evil which ought to be abated and abolished, as soon as that end can be properly and constitutionally attained and that its extention at least, should be uniformly and earnestly opposed by all good and patriotic men throughout the Union

Resolved, That the People of Massachusetts will strenuously resist the annexation of any new territory to this Union in which the institution of slavery is to be tolerated or established, and the Legislature in behalf of the People of this Commonwealth do hereby protest against the passage of any such territorial act, with an express power in Congress that there shall be neither slavery nor involuntary servitude in such territory, otherwise than for the punishment of crime

Resolved That the Governor be requested to transmit copy of the foregoing Resolutions to each of the Senators and members of the House of Representatives of this Commonwealth in the Congress of the United States

Open war between the two Divisions of the party

We learn from the Richmond papers of Monday, that the members of the Legislature representing Loco Foco constituencies, and a few Special Delegates from counties near the metropolis, convened in the Hall of Delegates on Friday evening last in pursuance of a notice of some weeks standing The design of the meeting (according to the Whig) was to carry out the great disciplinary maxim of General Jackson—that is to say, to whip in the friends of Mr Calhoun, or to kick them out

The regular resolutions are thus described by the Times

"The first was a nice general huzza for Mr Polk, which the Calhoun men responded to The next was more private—one to sing the Presidents for his diplomatic and foreign policy, and so on Then came on others der unsung the Senate for an alleged invasion of the liberty of the press, in expelling Mr Ritchie from their chambers—praising Mr Ritchie express ly—pledging the Convention to abide by the nomination of the Baltimore Convention—and in favor of faithfully adhering to the usages of the party—(i e the caucus system)"

The Calhoun men, of course, did not attend the meeting, and never issued resolutions to be voted on in their absence They appeared the most warmly, and were responded to on behalf of the Old Hunkers with the most open and undisguised denunciations

The war waxed hotter and hotter from the opening of the debate till the close, after 11 o'clock The speaking then ground, without taking a vote on the resolutions till Tuesday evening, 4 o'clock, when the debate were to be renewed

The Whig concludes its sayings and doings of this Convention as follow

"If all the resolutions, as prepared, will be adopted, by the unanimous vote of the Old Hunkers, is very certain They have determined that the Calhounites, who have so long (as they say) acted upon the rule of run and save, shall be reduced to submission—that they shall swallow, in a penitential draught, the resolutions prepared, however nauseous and bitter the dose This *some* of them will drink it to the dregs, we do not doubt We think we see the signs of full submission very plainly in certain quarters There are others however, who will sooner be buried beneath the ruins of the Capitol, than permit the chains thus dragged to touch their lips

Marlborough Hote Boston.

The editor of the Ever News Letter, a gentleman of fine taste, thus speaks of this hotel with which he has made an agreeable acquaintance

"The Marlborough Hotel is too extensive and favorably known to need a recommendation Then are other public houses in Boston, even more spacious and more expensively furnished than this; but if there be any in which a summer may enjoy more quiet, be more at home, find a more accommodating host, a more pleasant family, a better table better under and better comp ny—I have never been fortunate enough to find it More than one hundred people are usually seated at the dinner tables of the Marlborough, and most of those who spend the night under its roof are punctual in their attendance, evening and morning where prayer is wont to be made In this matter, however there is no constraint Neither religious services nor religious conversation, are obtruded upon any guest He may enjoy them as he chooses, he may avoid them if he pleases The gong gives notice to the prayerful to assemble and for the otherwise minded to set their pieces are The music of taste and correct habits as much as the devoted christian, removes in such a retreat from the tumult and confusion and dangers of the city, even as the city's heart where he has almost the family friendly attentions and enjoys the same, or consciousness of quiet, of protection, and safety that he has by his own fireside, in his own family

Governor Briggs and his family are at the Marlborough

Portrait on Hearts.

Suppose you were setting for your daguerreotype—would you make love to and have a ridiculous looking miniature? But cross, crabbed, cadaverous looking are, you are sitting every day for your daguerreotype,—it is taken on the hearts of the scores with whom you meet, and with whom you do business When you are brought to their minds, they see you as you are, ugly, repulsive devilish The impression you have on the hearts of others is more indelible than a portrait on canvass, it will remain so long as the human mind exists in the flesh Be careful then how you sit for your portrait It is taken in the highest style—in the crowded mart—at church and in the domestic sanctuary It will be brought up and studied long after you are dead The look of revenge—the lines of anger—the mark of scowl—the caustic sarcastic smile, will be recalled as you are paraded to the mind—and who would wish to leave such a portrait—such a character behind him? If you would leave the portrait of a real gentleman behind let the scowl and the gross look and growl of the lip pass away while the sunshine of kindness, and smile of benevolence, and the purity of truth linger on your brow Such an impression on the minds of others would be worth looking at and contemplating It would be more valuable to you child or than all gaiety of ten thousand dollars specie —Fortlan. A CARD.

We are again called upon to express our gratitude to the people of Orrington for their continued benevolence During nearly six years residence among them we have received nothing but kindness at their hands Since we have been sick without a relative to administer to our wants, and without the means of procuring medical aid, we have been visited with personal attention by every family in the place, and in addition to the kindness and attention of friends, a donation visit has been paid us by the whole town—a multitude of as honest and worthy people as can be found in Christendom—and left us, as a renewed token of friendship, one hundred and six dollars, all cash except a few dollars which were every way equal to specie

We feel especially indebted to Capt Young, who managed the affair, who can hang a horse from a mill, or preach a donation visit in a chorus, and who can manage in a logging swamp or a parlor with equal grace

The exercises commenced with a most appropriate prayer by Rev J Leland at the end of which every heart and tongue, seemed full for it, had been prayed for—After the collation we had a rich treat—the finest specimens of public speaking to which that we ever listened by Gen Shaw, a gray haired veteran who canvassed the whole ground of evangelical truth and religious obligation in the pulpit, and literally in the pulpit clear down to the bottom of it Mr Mayhew who gave us many of the best music and duets by fifteen minutes, than the events until congress will do in twenty days After a hymn by the audience Rev Mr Hilliard was called to the stand and in his usual happy style, gave us a few words upon the importance of work and labor, and urged us to be faithful faithfully adhering to the usages of the part—(i e the caucus system)"

The Calhoun men, of course, did not attend the meeting, and never issued resolutions to be voted on in their absence They appeared the most warmly, and were responded to on behalf of the Old Hunkers with the most open and undisguised denunciations

Santa Anna still Alive---Confirmation of the Great Battle of Chihuahua.

[From the N O Delta of 17th]

The editors of La Patria have received a letter from their correspondent at Tampico, in which it is stated that a vote had been received from San Luis Potosi of the 22d ult in which letters from confirming the Chihuahua battle, about the same as that of Santa Ana to which no credence was given in this city represents that as yet only slight preparations for some movement towards the South—The character, date from and object of this intend movement are wrapped in profound mystery

It is also stated in the same communication, that a hard fight had taken place at Chihuahua on 31st December between the Mexicans and Americans The loss of the Mexicans is said to be very great, the Americans were victorious, but suffered considerable loss in killed [No statement is made of the loss of the Americans, or what force it was that made the attack

Since the above was written we have received the next number of the Tampico Sentinel which contains the following statement in relation to the battle of Chihuahua After referring to the news published in the Delta of yesterday, the Sentinel says

This letter announcing as it does the defeat of the Mexicans, is very generally credited by all who have communicated upon it in our presence Not long since, the Governor of Chihuahua, in a letter addressed to the Minister of War and Marine stated that the Americans were approaching that place, and that he could not drive them back unless he was furnished with arms and ammunition, that he concluded, whether I get them or no, your Excellency may rest satisfied that the same thing will not happen here that did in Santa Fe and the absence of the enemy, that he opposed if we have no other means of defence than stones and clubs

We remember reading this epistle with marked attention and it occurred to us at the moment we heard the news, that the Governor had doubtless been supplied with arms, and fulfilled his promise

But in opposing muskets to the advance of the invaders, they were not of sufficient magnitude to prevent the onward rush of men who go into the battle field to leave it victorious or not leave it at all

IMPORTANT FROM THE BRAZOS.

CAPTURE OF MAJ BORLAND, CASSIUS M CLAY AND 30 OF THE AMERICAN CAVALRY

The following hasty note, communicating the above painful intelligence, was received last evening, from an attentive correspondent at the Brazos by the schr San Cap Flanders

Feb 5—Information has just reached us, that a detachment, composed of 50 Kentucky and 30 Arkansas Cavalry, have been cut off, thirty miles beyond Saltillo. They formed an outpost, and were surprised and taken without resistance, not a shot being fired Three officers were taken with the party—one is Maj Borland of the Arkansas troops, the other C M Clay, and the third I do not know.

The capture of Lieut Richie and ten dragoons who were killed between Victoria and Monterey, alluded to must be the great achievement of Gen Minon, referred to in our Mexican news

Latest from the Volunteers---The Orders.

It is said that Gen. Cass had arrived off the wreck with about 1000 troops from Tampico, and summoned De Reyney to surrender, which being refused, an engagement took place, which lasted for some time result not known Gen Cass has effected a entrance of cavalry and infantry to cut off reinforcements of Ampudia's brigade sent by Gen. Patterson to the relief of the Volunteers

Tea and Coffee Tax.

A telegraphic letter from Washington states that a caucus of the Democratic members of the House, held on the previous evening, had decided to support the tea and coffee tax

CONGRESS.

Washington, Thursday Evening, Feb 25 1847

In the Senate, The Committee on Naval Affairs reported a joint resolution authorizing the Secretary of the Navy to place the Private Mackenzie at the disposal of Capt DeKay for the purpose of conveying contributions to Ireland

Mr Fairfield, of Maine, advocated the Resolution

Mr Badger of North Carolina, opposed it—He approved of the employment of Government vessels for this object, but contended that they should be under the command of our own officers

On motion of Mr Crittenden of Kentucky the resolution was postponed until to-morrow, when he will introduce a Bill of the Relief of the suffering poor of Ireland

The Civil and Diplomatic Appropriation Bill was taken up with an amendment appropriating $50,038 for sending a Commissioner to Mexico in the event of Peace. The amendment was adopted

An amendment was also adopted for new Custom Houses at New Orleans, and Charleston

During an amendment appropriating Heirs old prices for printing up to the passage of the law regulating present rates. The Bill was postponed all to-morrow

The Three Million Bill was then taken up

Mr Davis of Massachusetts spoke at length on the subject, beginning with the Annexation of Texas, which he said was adopted and he does to have been the cause of the war with Mexico

Mr Calhoun of South Carolina said Annexation was perhaps the occasion of, but not the cause of, the war

Mr Hannegan of Indiana obtained the floor and the Bill was postponed till to-morrow

The Bill to purchase the Mexican papers was passed also the bill for the relief of the widow of Col McRea

After going into Executive Session the Senate adjourned

In the House—This body went immediately into a Committee of the Whole Mr Hopkins of Va in the chair, and took up the bills making appropriations for services in the Post Office Department amended several acts relating to the Patent Office, authorizing the erection of sundry Houses and doing other acts, discussed amendments of the Senate to build &c, making appropriations for the Military Academy and took up the Indian Appropriation Bill

These were severally considered and the Committee rose and reported the same to the House

These Bills and the Bill to increase the Navy were all subsequently reported to the House

The Senate bill was then agreed to, the Bill passed with its several amendments, and the House adjourned until Monday

NOTICE.

DISSOLUTION OF COPARTNERSHIP.—The co-partnership heretofore existing under the name of Wm. SWAIM & SON, was dissolved on the 21st of July last, by the decease of the said Wm. Swaim, and the business is now, and will be in future, conducted exclusively by the subscriber, who has had the sole charge of the manufacturing of the Panacea and Vermifuge for the last fourteen years.
The Panacea will be put up as usual in round bottles, dated longitudinally, with the following letters blown in the glass—"*Swaim's Panacea, Philada.*" and the only change made is the name of JAS. SWAIM, stamped on the sealing wax, as I *written* on the label covering the cork, and a new label for the side of the bottle, composed of geometrical lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., Bank note engravers of Philadelphia. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim separated from the borders by two circles of lathe work. The words "Swaim's Panacea," are engraved conspicuously on two turned strips, and a large semi-circular die forms the upper margin. The border are composed of plain lathe work strips, outside of which is engraved in small letters the entry of the copyright.
JAMES SWAIM.
Philadelphia, August, 1846.

SWAIM'S PANACEA has been for more than twenty-five years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.
It has been used in hospital and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by—
W. Gibson, M.D. Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N.Y.
W. P. Dewees, M.D., Prof. Midwifery, Pa.
N. Chapman, M.D., Prof. Physic, Pa.
T. Parke, M.D., Pres't College Physician's, Phila.
Dr. Del Valle, Professor Medicine, Havana.

G. W. Irving, late Minister to Spain.
Sir Thomas Pearson, Major General, British Army.
Gilbert Robertson, British Consul, &c. &c.
And also, the wonderful cures effected by Swaim's Panacea have for many years made it an invaluable remedy. The Panacea does not contain a mercury in any form, and being an innocent preparation, it may be given to the most tender infant.
The Retail Price has been Reduced to One Dollar and Fifty Cents per bottle, (containing three half pints) or three bottles for four Dollars.

DR. DAVIS'S COMPOUND SYRUP OF WILD CHERRY and TAR,

FOR THE CURE OF

Pulmonary Consumption, Coughs, Colds, Asthma, Influenza, Bronchitis, Pleurisy, Difficulty of Breathing, Pains in the Breast or Side, Spitting of Blood, Croup, Hooping-Cough, Pain in the Chest, Nervous Tremours, &c.

IN introducing this medicine to the public, we deem it proper to state for the information of those at a distance, that it is the preparation of a regular graduate of the University of Pennsylvania, a physician of twenty years practice. To show the standing of Dr Davis, and the character of his medicine, we offer the following editorial notices from newspapers of Philadelphia:—

From the American Sentinel, Dec. 16, 1845.

In our advertising columns will be found a notice of Dr Davis's Compound Syrup of Wild Cherry and Tar. Dr Davis is a respectable physician of this city, of many years' practice, and his medicine is supported by unquestionable and satisfactory testimonials. Among the certifiers we observe the names of a number of well known and respectable citizens.

From the Christian Repository, Dec 15, 1845.

We insert in another column an advertisement of Messrs. Johnson & Collins' for this city, to which we take pleasure in calling the attention of our readers. We do this more especially from the card of Bro Bunce, which is appended to it. Bro B. is a member of the M. E. Church in good standing, and those who know him personally as we do have the fullest confidence in any statement he may give of the efficacy of any medicine which he may have tested.

From the Phila. Daily Keystone, Nov 2d, 1845.

A Valuable Medicine.—On Monday, we will commence publishing a series of testimonials in favor of a new and popular medicine for pulmonary diseases—Dr Davis's Compound Syrup of Wild Cherry and Tar. We are happy to say that we are personally acquainted with that respectable physician, as well as a number of the certifiers, who are gentlemen of respectability, and every confidence may be placed in their statements. It strikes us that a medicine under such auspices, is entitled to the attention of the afflicted.

From the Native Eagle, Dec 1, 1845.

We refer our readers to our advertising columns for a notice of Dr Davis's Syrup of Wild Cherry and Tar, for affections of the Lungs; a desirable desideratum, as the present juncture, when cold Boreas has so suddenly laid his rough hand upon us, scattering coughs and colds about our ears. Other certificates will be continued from day to day. We only add that we are acquainted with Dr Davis, and also with a number of the persons who testify to the good effects of the medicine, and can vouch for their respectability, and its genuineness.

The above medicine may be procured of Messrs. Brown, Chapin & Whittier, Nos. 15 and 16 Commercial-street Boston, and also of Messrs. HALL & YOUNG, No 4 Smith's Block, Bangor, Agents for this section of the State.
